Allowable Subject Matter

Claims 1-61 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-37, the prior art does not disclose, teach, or suggest a mast lighting system comprising a power distribution assembly having a casing defining a first and second opening therein and a distribution component subassembly disposed within an interior of the casing, the distribution component subassembly having a first detachable connector connected to the first opening of the casing, wherein the casing is disposed within the interior chamber of the mast such that the second opening of the casing is in registration with a conduit in the mast lighting system.

With respect to claims 38-57, the prior art does not disclose, teach, or suggest a power distribution assembly for a mast lighting system comprising a casing defining a first and second opening therein and a distribution component subassembly disposed within the casing, the distribution component subassembly having a first detachable connector being constructed and arranged to form a substantially moisture proof connection to the first opening.

With respect to claims 58-61, the prior art does not disclose, teach, or suggest a method of constructing a mast lighting system comprising a power distribution assembly having a casing defining a first and second opening therein and a distribution component subassembly disposed within an interior of the casing, the distribution component subassembly having a first detachable connector connected to the first opening of the casing, wherein the casing is disposed within the interior chamber of the
